Help us maintain a safe parking lot

Keep the parking lot safe by following these rules at all times

- 1. The loading zone is for drop off and pick-up only.** Do not leave your vehicle for any reason. Move to a designated parking space if you need to leave your car.
- 2. Pull as far forward and to the right as possible when in the loading zone.** This will allow others to pull in behind you or pass safely on the left.
- 3. The speed limit is 5 miles per hour at all times.**
- 4. Observe all signs and traffic flow indicators.** They help maintain a safe parking lot!
- 5. Escort your children across the parking lot at all times.**
- 6. Be on time for pick-up and drop-off! It benefits everybody.**
